## Look for Corporate financing, investor **Vacation Bungalows**

I would like to become self-employed (in the tourism sector rental town houses) and need for urgent capital / loans / credit. The money will be repaid, of course, at reasonable monthly rates and / or it will be offered a stake. Have already found good homes in the states (Florida, California) and South Africa. (Investors, or a (business) partner (who may want to go even) can of course also like to contact me. Many thanks already times in advance. Thank you very much.
