## **Software-Company with Document Management System**

For age reasons we offer our company (AG) and/or the software with all rights, in their possession.

The software is a highly scalable document management system (DMS) inclusive archiving. It is applicable for all industries.

Modules for manual and automatic inputs, as well as full text search and Workflow are components of the system. Also the system is SAP certified.

The software is high flexible and very integrable.

The buyer should have good development know-how for software and MS systems. And should be able to care for the existing customers.

The location in Switzerland is not compellingly necessary for the software rights.
