Look for Corporate participation, firm participation **Production of new building material**

We are looking for investors in the field of new and innovative building and construction materials. Our concept was proven positive by different German banks and a part of the overall investment sum is guaranteed.

The rest of the investment must be obtained by other investors. There is a business plan which you can get after signing an agreement of secrecy.

It is considered to get a well known international company for which new capital is needed. The product and strategy will be explained in detail. Up till now we conclude:

product expands the variety of building possibilities largely.
positive test has been made by an independent institute
2 prizes for innovative product of German economy have been won
orders and inquiries ongoing
production costs low, high profit possible
product is purchased for several options
several partners for licences, some contracts signed
planning of new production site, real estate and building in companies hands
several reports concerning product in magazines, newspapers, radio and TV
international approach, several interests and cooperations in planning

We are looking for limited partners, mezzanine capital. Capital needed: 2 Mio Euro.
partnership from 20.000 Euro onwards

time: short-term

Participation

Region 33, Germany
Entry in own name
