## Offer Corporate sales, firm sales, sales **Stunning Country Hotel in Cártama**

This stunning Country Hotel is situated in the little hamlet of Barriada Sierra de Gibralgalia, close to Cártama in a beautiful traditional rural community where people can still get a taste of the real Spain.

The property offers peace, tranquillity, quality of life and panoramic views over the neighbouring villages, the rolling mountains and beautiful valleys of the surrounding countryside, and the Sierra de las Nieves. Driving time to Málaga and the airport is only 30 minutes.

This very charming property used to be an olive oil mill dating from the year 1852. It has been renovated with the newest construction techniques, with all the work being managed by a professional designer with more than 18 years experience. The renovation has been carefully carried out using the original materials of that time such as Arabic roof tiles, wooden beams of more than 150 years old and bricks from churches and monasteries etc. The completion has been done using quality modern materials but still respecting the rustic ambience.

The two storey hotel comprises 5 stylish bedrooms (all with cold/hot air-conditioning units) with beautifully designed en-suite bathrooms; 2 large reception rooms, each with a traditional style fireplace; a restaurant; a fitted kitchen with a very spacious adjoining larder; two separate toilets and a compact bar. Outside one can find covered porches, terraces with marvellous views, a very large storehouse and horse stables.

The delightful and extensive surrounding gardens have been beautifully designed to add a unique complement to this property. They have been installed with an automatic irrigation system and are planted with a variety of plants, flowering shrubs and fruit trees. The property also benefits from a larger than usual swimming pool situated in a secluded area and Jacuzzi.

There is also a newly built adjoining self contained 3 bedroom apartment with en suite bathrooms, again beautifully presented.

This is a unique and impressive property that has been built and designed with quality in mind. Every detail in the property has been carefully thought of to make it resonate with elegance and style.

Price: 950.000 Euros (Freehold)
