Look for Corporate financing, investor **Spare time Wellness**

I plan in a German-language area in the proximity of a large city a hotel with riding site.

Purpose of this plant is the correction of riders with their horses. The force-free reeducation is located in the center of the happening (duration 6 - 12 months). Always however by active cooperation of the owners of horse.

This is a continuation of the past Monty Robert method (in Germany: One goes to Andrea Kutsch), by the inclusion of the owners of horse for the first time a that practical way.

Hereby this way offers a durable solution to each owner of horse.

I look for the capital for:

- a IV stars hotel (maximally 6 Suiten/apartment)
- 30 x 60 indoor riding arena equipped with solar plant and heating
- Stars horse stable (with approx. 10 horse boxes)
- External places (Dressur + jumping)
- 8 - 10 hectares pastureland at the plant

Planned capital requirement approx. € 2.5 millions - € 3.0 millions

Capital

Region 24, Germany

Entry in own name
