Offer Corporate sales, firm sales, sales

New developments in renewable energies

Small local independent technical office, new developments in air pollution control and alternative power production, patents, already working installations, current orders.

The systems fall predominantly into the range building of metals.

The developer is localindependent, and should be absolutely taken over with.

The integration is aimed at into a larger enterprise from the range metalworking or technical office for alternative energies in German spoken area (A, D, CH).

The sales comes for personal reasons.

The enterprise has largest expansion possibilities.
