## Look for Corporate financing, investor **Transport companies**

We have our company under the name "Nah transport companies - and long-distance" to officially founded. This measure was necessary to access the principal to come and suppliers.

Our company is the link for all large firms in logistics issues. We will work with major freight companies purposefully together to circular runs to avoid empty kilometers to get. This measure gives us the guarantee, always flexible to exploit market, in order to more effectively our clients and customers happy.

Meanwhile, we have already with large companies in contact, which our application and are available in the analysis. Clearly, we have with other logistics companies contacted. Many of us are interested and would like us as a competent partner at her side. News is the problem for us is that we, because of our intensive marketing activities for at least 10 vehicles and it could take tours.

Therefore, we are looking for, because the banks a haulage industry as a risk capital industry considers urgent donor. The calculated estimated annual turnover (of a competent body with errechnet) is between 2,000 000Mio. - 3,000,000 million.
