Look for Corporate financing, investor **Restaurant**

I am looking for an investor or a lender who can grant me a credit for an existing restaurant in Moenchengladbach, I opened the restaurant 3 years before without no savings / capital / funding and the turnover is rising. But I do have the burden of the beginning and have to fight with the startup problem which makes everything difficult for me, because banks are not willing to grant credits to restaurant, i am now looking for someone who can give me a credit. The restaurant has future prospects, as we are the the only restaurant in NRW and environment who offer these specialties. As of now, we have guests from all over coming and we make it up without advertisement, guests are coming through referrals and walk-won, which is always satisfied and used to come back . Details by serious interests by or in person.
