Offer Corporate follow-up, firm follow-up, follow-up **Print-Industrie**

The company was founded in 1992 and offers a wide range of commercial printing products and periodic publications in small, but also medium and large series. The company is specialized in the production of folded print products, especially on products with a high number of folds (eg package inserts).

In addition, the company uses technologies that enable complex pre-press and folding activities. The company uses highly modern printing facilities (is in possession is one of the most advanced 8-colour printing presses in the Czech Republic).

The order situation is very good and so the company has secured contracts for the years 2008 and 2009.
