Offer Corporate co-operation, firm cooperation **Automotive Supply**

The company was founded in 1990 and is a supplier to the automotive industry with 18 years of experience both on the domestic and international market with focus on the production of prototype components and tool manufacture.

In 2008, the company's product portfolio is being expanded to small-scale production of component parts (10,000 to 60,000 parts/year per product) and therefore the company is looking for a strategic partner.
