## **Development of new Internet Technologies**

As an IT development company and Operating Company of various Internet Portals in the film and Video sector, we developed years ago with the increasing Switch from digital Media (such as CD, DVD or Blu-ray) to The Internet, IPTV, PODCAST, mobile And "just in Time "viewing/delivery as well as related B2B solutions and forward-looking Content Management Systems employed.

Under the Motto: Launch means technology from yesterday tomorrow ... our Market analysts and Developers keep looking ahead.

For example, in-house, modular CMS technologies were created with the Possibility to implement new Video on demand procedures (E.g. real-time Streaming, Control and Management of High-Definition Kontent via Internet).

A Feature that already creates completely new, commercial, User and PR possibilities in all companies regardless of the Industry.
