

The big business marketplace

Business for sale more than 15 years

ID 10715

Look for Corporate financing, investor **Mechanical engineering**

Risico investors.

The project is the creation of a US company specialising in the production and distribution of recycling machinery and equipment. The market has not yet been expanded or is currently in its infancy. Processing of biomass, reduction of household waste, production of substitute fuel and crushing of waste wood. From analyses and statistics, it is known that the industry, which is only at the beginning of a global development, is facing great growth. Not least because of the election of Obama, because he will bring a lot of change here in the near future.

Required investment amount:
