## Look for Franchise, license **Knowledge**

Hello dear start-up interested parties,

we are a young but already relatively successful offline and online start-up with headquarters in Regensburg.

Our business model consists essentially of teaching tutoring, repetition and seminars. Our target group includes students as well as companies.

Our locations are so far Erfurt, Karlsruhe, Munich, Regensburg and Weimar.

We are looking for motivated branch founders all over Germany who, together with us, transfer the down-to-earth and profitable business model of knowledge transfer to other cities and establish an independent branch there.

You are almost independent of us when you set up your branch. Of course, we support you in all questions and concerns as best we can. For example, you will receive all know-how, sample contracts and promotional materials directly from us.

### [Franchise](#)

Region 93, Germany
