

The big business marketplace

Business for sale more than 15 years

ID 12919

Offer Corporate sales, firm sales, sales

Digital printing / film cutting / online retail / eCommerce

For sale is an online shop.

The shop deals with the sale of wall decorations such as posters, wall decals, canvas essays, photo wallpapers, wall prints and much more.

These items are made by us in-house. A large-format digital printer and a foil plotter are required for the production of the products.

The motifs for the wall decals are largely self-designed.

The domain has been in existence since October . The shop has been built up and filled to this day and already records noticeable sales in its start-up phase.

Things like SEO, link swap/backlinks etc. suggest much higher sales in the medium and long term, as these have not yet been tackled.

Inked items in the shop: approx. 1000 as well as numerous attributes (color, sizes, etc.)

Visitors on average about 2,500 per month.

The TLD as well as the webspace is of course included.
