Offer Liquidation, Operating dissolution **Exercise studio, health practice**

Resolution movement studio, specialized in the treatment of pain in the musculoskeletal system:

Sale of 8 therapy tables from Wellness at Tiffany.

The devices are a training circuit.

Gentle for the spine and other joints, patients are moved while lying down. Through the gentle mobilization, the patient then has the chance to make good use of further therapeutic measures, which are not yet possible.

Originally a therapy for polio sufferers, stroke patients and anyone else who has problems controlling your muscles or heart/circulatory system, the system also gained acceptance in the spa in the 1970s and 1980s, as the exercise provides effective support for weight loss diets and often cellulite regained.

The devices are sand-colored, very well maintained, only with small damage to the corners etc.

replacement joints (we never needed). Otherwise maintenance-free.
