Taxi

Very well established taxi company in the Franconian Lakeland with three taxi concessions, a rental car concession and a separate headquarters, for family reasons to sell.

The company has a monopoly position in three municipalities, which together have a population of 17,000 and all have their own railway station.

It therefore offers a very secure livelihood.

The core business is sick rides, school trips and normal taxi rides.

The vehicles are as good as new and can be taken over, as well as a rental contract for an office. The extremely nice and reliable staff can also continue to be employed. The non-life discounts of taxi insurance are, of course, also overwritten.
