Look for Corporate participation, firm participation

Fahrzeugbau

We intend to revive a former German Automotive Brand, to resume development, Production and Distribution. In order to obtain the required Equity (€ 6-8 Million) and to reduce the Risk of Total Financing, a Founding Company is to be founded beforehand. Founding Members will receive Special Rights for the subsequent Acquisition of the Shares or Shares at the company, which is ultimately to be founded. The Trademark Rights are secured, Concept and Business Plan are drawn up, but will be coordinated again at the time of Foundation. It is intended to spread the Sum of the Shares to several to many Shareholders.
