Look for Corporate participation, firm participation

## **Onlinemarketing**

For an internet-startup in the area of online marketing / voucher marketing I search an active partner or cofounder. An Executive Summary already exists and the business plan is provided currently.

The capital requirements lie possibly with 100,000€ and should be financed by means of venture Capital about an investor.

The main entrance which I plan does not exist in this form yet at the German market and has in the medium term and in the long term an accordingly high sales potential.

I myself am a dipl. communication landlord BAW, have extensive knowledge in the production of On and off-line media, as well as media planning and long-standing experience in the commercial marketing.

The partner should dispose ideally of experience in the on-line marketing as well as distribution and bring the absolute will to the construction of an Internet-Startups.

Prospective customers with serious interest can contact me with pleasure.
