Electricbusshuttleservice

In the German capital will arise with the opening of the new airport shuttle bus service to the world's first all-electric buses. We provide direct, environmentally friendly shuttle service from the airport directly to the selected hotels and 5 star category while in three lines. The ticket is only slightly higher than for public transport and provides for comfortable transport From the airport direct to hotel and vice versa. Due to the extremely low running costs are driving despite the favorable price, yields above 20% is realistic. By using 100% green electricity you go absolutely emission free. Planned to market advantage is to be used to establish kurzfristig at other major airports that service. Additional revenue is provided by traffic and trips. Other returns are generated by the gains in solar projects in southern Europe to invest.
