## Offer Corporate co-operation, firm cooperation **IT-Consulting/Software Development**

Innovative IT company with many Years of experience in Consulting, software architecture, development and testing is looking For cooperation to Expand Its Business activities.

Our previous Activity is mainly based on Consulting, i.e. we are paid directly for our Work Assignment. We now want to evolve more towards The product.

There is an Important investment Model in which we develop software (if necessary also in Advance) that you distribute. Cooperation with other Software Companies or Company Takeovers are also interesting.

### [Co-operation](#)

Region 86, Germany

Entry in own name
