## **Retail retail purchase**

The bright and very well maintained food market is to be delivered for health and age reasons.

On 604 sqm of retail space there is a wide assortment with very well maintained interior. So far, a near-purchase concept has been implemented.

As a full ranger with a large sales area, the retail location has a unique selling point - with many regular customers. The adjacent, densely populated residential areas allow a well-calculated and predictable turnover.

The family-owned company, which has been in the family for 15 years, is being abandoned for reasons of age and health. The owners are pensioners and want to retire in the earned retirement.
