Look for Corporate participation, firm participation

## **Production of renewable Energy**

We are looking at the Production of renewable Energy, such as Electricity, Heat and Fuel, from renewable Resources. Restructures are used Without exception. The necessary Input is pre-contractually secured for Years to come. The electricity generated is fed into the national Grid and remunerated according to the EEG. The Acceptance for the Fuel is 100% secured. 25 new Jobs are being created. We give Investors and Retail Investors the Opportunity to participate in our Company. We offer Investors the Possibility of direct Participation as well as silent Participation.

### [Participation](#)

Region 39, Germany

Entry in own name
