Look for Corporate financing, investor **Italian Restaurant**

We are looking to implement a new type of Italian pasta & pizza concept for an investor / partner. All relevant work (planning, equipment selection, marketing plan, etc.) are already done, so that can be immediately started to implement.

The concept includes new elements that are found in Germany nor in any Italian restaurant. In addition, both the concept and the viability plan was reviewed by experienced restaurateurs and approved.

If interested, all important documents (business plan, references of the project participants, evidence of collateral, etc.) are presented.
