Model Development, Production

Model construction company with Development and Manufacturing Made In Germany is looking for Expansion capital to support Growth in the long term and to drain the Market Potential. The Company is already making Profits.

The Owner is In his early 30s and internalizes the "sleeve high mentality." Very good market knowledge showed great Potential, which has developed into a suc effect. This Potential can be exploited if the Course is set now. It has already begun to invest in Brand Building.

The Products, exclusively In-house developments, are manufactured in Germany, often in the plastic injection casting process. The Products are not Toys, as the Customer places a high Standard on Processing, Quality and Possible Applications. In the future, Made in Germany is not to be consciously dispensed with either. Different Markets or Companies are used as Suppliers.

The Distribution is exclusively B2B.
