## Transports

We are a small Transport Company, which has been operating successfully for more than 40 Years, owner-managed in the 2nd Generation, based in the Rhine-Main region. In addition to special, Europe-wide Transport Services, we specialise in Services for our Customers on Site and in our Freight Forwarding System. In order to continue to secure a broad and sustainable Customer Base for the Future, we are looking For Collaborations with similar companies, with new Customers/Shippers, or with Freight Forwarders who want to complement their Services in a meaningful way.
