Established Personal Training Studio for sale in Dusseldorf

The personal training studio from , established for a number of years, has to be handed over for personal reasons. It is a microstudio with a small but very personal, loyal customer base of about 80 customers.

The studio is characterized, among other things, by a good location, as there is a busy shopping street in the immediate vicinity. In addition, many small and larger companies are in the immediate vicinity.

The company is successfully active on site and also offers new entrants a very lucrative and solid basis, as a solid customer base with ongoing contracts is already being taken over.
