Offer Corporate participation, firm participation

## Retail

Our company was founded in 1998 and has strongly grown in 2000, 2001, and 2002. In 2003 and 2004 we doubled our revenues and won two international franchisees. We are now shipping to DE, AT, CH and UK. The fashion and accessoire segment is very attractive due to high retail margins.

Apart from reselling renown brands we have started our own retail brand in order to increase margins. Additionally we are currently implementing a dropship model with a large asian manufacturer that will allow us to list more than 1.000 articles without having to increase our stock and with it the working capital requirements.

In order to continue our growth we need additional 100.000 EUR. We will consider investments of 25.000 EUR and higher. In case the investor seeks a larger stake the Business Angel's stake of 40% might be available.

NDA and proof of capital is required.
