Production of children's play facilities

Sell my business content for the production and distribution of children's play facilities according to Din En 71 for private use.

Product photos, as well as set-up instructions and all knowledge are awarded.

He operated this area himself from to , but gave up due to physical stress.

Sale price 10,000eur. Non-negotiable because all technical instructions were designed by a Cad drawing office and a lot of money and time is included here.

Likewise, buyers get written confirmation of a one-off sale, so I don't sell this field a second time.

If you need Bwa, this is no problem. However, if we want to come to a sale on this track, we are all oriented. The sale price, which is then set as a fixed price 50,000eur, is set for the sale price.

I don't think anything of nicely laid out push-out Bwa.
