## **Mechanical Engineering/Consumption/Automotive**

Mechanical Engineering (44 J) with international Management experience in the Automotive and Consumer Goods Sector, Companies (good Margin or restructuring) are looking for products with techn. products for Takeover or Entry via Participation. Equity available For the successful Continuation of Your Business, I bring Experience as Managing director of Family-owned companies in the Consumer and Automotive Industries. As Part of my professional Experience, I have successfully set up Companies abroad, been responsible for various large Locations and more than doubled Sales on the sales side in just 5 Years (medium double-digit Million million range). Operationally, I was able to significantly increase the Margin above the industry-standard level.

I intend to fully contribute to the Company after the Acquisition and develop it further as a "Family business" in the long term. To do this, I relied on a "good Team."
