ID 18908

Look for Corporate financing, investor

## **Theme restaurant**

In the start-up projects documented here is Europe's most unique restaurant experience "Roll 'In". The company's activities cover a Restaurant service, bar and restaurant. The focus is food and drink along the lines of the US from the 50s in the foreground. The concept with detailed description can be seen only in the business plan. I ask those interested to contact us.
