Offer Corporate follow-up, firm follow-up, follow-up **Engineer and Consultant**

You want your company to pass on in good and innovative hands and/or adapt to current market needs. or sustainably ensure the survival of your company?

Mechanical engineer working with specialization in production currently in the consultant business decided to operate his own company.

I search for this reason a manufacturing company which is in the situation of a successor search. It should be a good order situation and a solid customer base already existing.

Please provide all offers, with reference data, such as sales of the past three years, company size (production area, number of employees and machinery) and the possible takeover regulation.

Companies are preferably sought that can be taken by a possible retirement.

Succession

Region 50, Germany

Entry in own name
