

The big business marketplace

Business for sale more than 15 years

ID 19196

Offer Corporate sales, firm sales, sales **Online shop trading**

You have the opportunity to purchase an online shop that has been active since .

The online shop was created according to state-of-the-art criteria and is up-to-date visually, technically, functionally and in terms of speed.

With a distinctive design, it has been given its own logo and corporate design, as well as a short and memorable domain name.

Much has already been done for search engine optimization and the shop advertised on different platforms (shopportals, ad markets, etc.).

The sales made so far have been generated both through these platforms and to an increasing extent through the shop itself.

Now I am looking for a prospective customer who, as a new owner, sees his task in the further expansion of the shop and wants to approach it with a lot of commitment and passion.
