Offer Corporate sales, firm sales, sales **Beauty salon with hairdressing**

The beauty parlor was founded in 1999 and runs quite well as a company with a very wide range of services. Synergies between diverse business units provide a very good cross-selling. The loyal customers and motivated employees / partners contribute to the success of the company. Unfortunately the owner must leave Germany soon, so we look forward to an offer to purchase and / or active participation.

The salon is located in the top area of : Grunewald. The premises are decorated very elegant and fit to the 1-A-location. The venue has been completely renovated 2 years ago and consists of a spacious and comfortable waiting area, several spatially separated areas and an office for administration.

As mentioned, the studio is divided into different areas that complement each other perfectly: cosmetics (including innovative treatments such as microdermabrasion, microblading etc.), hairdresser, pedicure, hand care, training and various body treatments (including gyrotronics etc.).

Thus provides for the new owner the chance to continue an optimally established organization seamlessly.
