Offer Corporate sales, firm sales, sales **Leads for Insurance companies**

Lead Generator for insurance products

The our company for sale site is a guide portal with professional generating new customer contacts for insurance products, that generated about 2000 leads per year. The corresponding domain, including mobile version, social media channels and customer database are simultaneously passed as a package. The portal has only the domain costs as fixed costs and have successfully established an operational system that is fully automated in this framework.

Due to several successful collaborations and long-term contracts with insurance companies, the platform was able to increase its visibility over the years ahead and keep the number of visitors constantly high and expand. The leads generated are automatically sold to Insurance Consultants and generate services revenue. The company's database is therefore grown to 10000 customers and selling leads since the establishment of . The high number of new and returning visitors and the strong customer growth over the last fiscal year in addition underline the attractiveness of the website. Finally it must be mentioned that this site is the market leader in this field and has excellent rankings with an excellent visibility in Google.
