Hotel-Restaurant

Unique object steeped in history is looking for partners or silent partners. The property impresses with its unique unique location with water and mountain views. The property has been a hotel and accommodation establishment for more than 450 years, where many and still well-known guests dine and live today.

The object needs to be expanded and modernized, with 50% already modernized and refurbished. The object is to be modernised to such an extent that it is to be operated autonomously, with wind and solar energy as well as other state-of-the-art technical unique energy developments, are to be installed here. (Partly with funding grants from the European funding community).

This object is unique, in location and architectural style, like a small castle. The property is to be expanded with several rooms, about 40 units as well as an event hall for business events and other major events.
