Company sales/company sale

Temporary employment

In the client order, an established temporary employment company from other European countries, we are looking for companies in the field of temporary work, etc. As part of an expansion planning, our client is looking for companies in this sector up to about €15 million in sales and ideally with 3-5 locations. More important, however, is a good starting point for being able to develop the business in Germany from there. Good leadership structure and broad customer base would be beneficial.

We act on behalf of us, so there is no commission from the seller.
