Look for Corporate co-operation, firm cooperation **Renewable energy**

We are looking for our business partners in China to invest in renewable energy in europe. The areas are new technologies with patents or other protection in the field of renewable energies.

The partners would acquire licenses / exclusive marketing rights for China to produce and market their products and technologies there.

The investment volume is possible from 1 million euros upwards.

Please only offer finished products.

Co-operation

Region 88, Germany

Entry in own name
