Look for Liquidation, Operating dissolution **Ingenieurbüro**

For our parent company (similar to Alten/Altran in France or Ferchau in Germany), we are looking for a company in Germany with a similar business model. This means that we are looking for a company that will lend its engineers to their customers for the duration of the project and carry out the work on site, i.e. on-site. Companies related to the automotive and production industries as well as energy companies with renewable energies or those that carry out energy audits and determine efficiency improvements are interesting.
