

Offer Corporate sales, firm sales, sales

Coffee Production with Internet Shop

For Operational Reasons, we Sell our Production with an entire Machinery and the growing Customer Base.

The Roastery was founded at the End of . Since September , we have been generating our still low Sales with two well-known Retailers, which can now be expanded very strongly with very little effort.

The Trend of conscious and regional Nutrition is once again finding its Place in the Retail sector.

Demand is therefore high.

At the end of , we expanded our company with an online shop.

Since we operate the Roasting Plant nebeher, the Sales Development will not show up until September .

We offer here a professionally equipped coffee Production, which already has its trade in Retail and can be greatly expanded with very little effort.
