Offer Corporate co-operation, firm cooperation

Online competition

Search business partner in for existing fully developed business,
There are no costs to my business partner, because everything is already paid for and finished.

It's about an online photography competition.

There is already a Facebook page that has 7000 people without advertising. There have also been a number of registrations. It would now be important to promote the site on all parent-mother-mother-children's Facebook and other sites. In addition, I have already selected all kindergartens from all over Germany with an address. There are so many ways to make the project great to make money, even later you can always offer all competitors sweepstakes with affiliate and and so on.

[Co-operation](#)
