ID 20131

## Offer Corporate follow-up, firm follow-up, follow-up **Production of plastics technology**

The specialized highly engineered production company has been successfully operating as a supplier to many well-known manufacturers for many years. The high product quality is distinguished by the employees and thus has an unrivalled market. Customers confirm this with their loyalty and payment reliability. The product qualities, some of which are unique in the automotive industry in particular, are highly regarded.

The certified company is established on the market as a specialist due to its unique and high-quality products. In addition to customer orders, patented in-house productions are also successfully distributed nationally and internationally. The distribution of the own productions is carried out by a trading company. The liquid and loyal customers show the satisfaction with the company and its products through their decades of attachment.
