

The big business marketplace

Business for sale more than 15 years

ID 20184

Offer Corporate sales, firm sales, sales

Online shop Electronics and Home Devices

A domain is for sale.

On request, you can purchase an active shop system with about 15,000 Dropshipping-based items as well as individual design. Electronic items (televisions, mobile phones, comprs, accessories, cameras, etc.) and household appliances (refrigerators, dishwashers, etc.) are sold.

No camp of your own is needed. All items are sent directly to the end customer by German retailers (dropshipping). The artwork is provided by the dealers, as well as the texts. The articles are taken into play via CSV files. This also automatically creates the inventory, which has not been checked by the system.

The shop system runs through OXID.
