Food trucks with a fixed stand

For sale is a newly built food cart with a fixed location in a top location, directly on the B6 (a lot of traffic and transit). The offer is, of course, expandable. Thanks to the good location, the snack is well received-the numbers are good. The owner of the pitch is also interested in a long-term lease.

The snack is fully equipped and well maintained. We can look forward to many satisfied regular customers. Vollexence is absolutely possible here.
