

The big business marketplace

Business for sale more than 15 years

ID 20275

Offer Corporate participation, firm participation

Software development, organizational consulting

As a young start-up with a customer-based company, we distribute and continuously develop an existing and market-established organizational software with a focus on capacity and assembly planning for the craft industry.

For a complete restructuring as a SaaS solution, we are looking for cooperation partners, active investor/business angels or already established companies who want to expand their business area.

We are also happy to introduce the customer base and ongoing care and support contracts with a majority division.
