Look for Corporate financing, investor **Erotic development**

Creating an app in the red light sector Especially erotic is subject to constant change, whether through legislation, the media such as the Internet, or the customers and their behaviour and desires. That is why it is particularly important to be able to react quickly in order to be able to adapt to new situations.

With Se ... t we will launch a new app that makes it easier for both service providers and customers to search or work. Whether it is the logistic, the legal and the health part. In reality, these are 2 apps. The app for the customer and the app for the/the service provider/in.

Just a few features from our extensive offer.

For customers:-Search database to find a service provider in a region that meets its ideas and is also available at the desired time.
