Look for Corporate financing, investor

## **Hotel gastronomy event**

You are an investor/restaurateur/business angel and are looking for a new interesting project.

Have an interest in a fancy, non-everyday hotel/event project, with ecological innovations.

Our project is based on many unique features and small innovations with attention to detail. We want to differentiate ourselves from the competition in every respect and offer the guest a unique experience.

Start an unusual journey back in time to the Middle Ages. Treat yourself to a wellness getaway at a castle, live as in the Middle Ages without renouncing modern achievements. Immerse yourself in the bygone days of kings, knights and knappen. Take on the role of king or queen and be enchanted by witches, goblins or other fantasy figures. We not only offer for hotel guests, but will also host some public events annually.

### Capital

Region 61, Germany
