## Offer Corporate follow-up, firm follow-up, follow-up **Short-term rentals**

Offer succession/takeover of a rental/accommodation business on a private basis with its own property.

Rental income per year is about EUR 55 thousand, depending on the expansion of service and service services. The business is located in the area of rental without a hotel operation/guesthouse. The lavishly spacious property with large plot of land, which was mostly renovated a few months ago, can be rented or purchased. In the case of renting, it is necessary to take over the movable inventory.

We are thinking of a tenant couple who have already worked in the service area of a restaurant/hotel industry. Even cross-starters or ancillators who are flexible in their timing can create a good (secondary) income with new ideas.

If you are interested, you can find more information via email.
