## Look for Corporate participation, firm participation **Tapas Bar**

In February we have d. H. My wife and I opened a Bavarian tapas bar in Torre del Mar, Spain-Andalusia.

The restaurant has about 50 square meters in the outdoor area about 40 square meters.

We are accompanied since the end of last year by the television team Goodbye Germany.

In the summer will be the radiation.

We are very happy that our concept is well accepted.

So far we live predominantly by word of mouth propaganda.

And with increasing success.

We have many "repeat offenders" and many regulars.

We are full of visions but we lack the resources to do so.

We have invested about 60,000 euros so far.

We are now looking for an investor or partner who supports us to exploit the undoubtedly great potential of our concept and the location and to grow with us.

Also planned is another branch in Marbella. We already had offers here, but we lack the financial resources.

An investment with a deposit of 20,000 to 25,000 euros would be our idea.

Have we piqued your interest ? Do not hesitate to contact us. We look forward to you.
