

The big business marketplace

Business for sale more than 15 years

ID 20662

Look for Corporate sales, firm sales, sales **IT system house**

We are a -based system house group and are looking for the possibility of company takeovers and shareholdings for business expansion.

We are interested in companies in the IT and TK sectors. We are also happy to take on problematic companies. The focus is on maintaining the location, the brand and the jobs. Continuing employment for the previous owner is possible. We can use references that we have already completed successful company takeovers, receiving location, personnel and brand.

We look forward to getting in touch.
