Look for Corporate financing, investor **Vending**

Company founder with many years of professional experience in the vending industry (most recently worked as managing director of a company in this industry) would like to become self-employed.

For the company to be founded, I am looking for EUR 100,000 seed capital. I offer the investor the possibility of a credit protection for his investment. Duration 12 months.

Unfortunately, our regional commercial banks do not give credit to founders.

I would be glad if an investor makes me a serious loan offer (peer-to-peer) in this way.

Capital

Region 68, Austria
